

Success Stories

**WET/DRY COLLECTION SYSTEMS
FOUNDATION & DRAIN WORK
CHILLED WATER SYSTEM
INSTALLATIONS**

APPLICATIONS

WBI was involved in the following for a plastics recycling facility:

- Design, build and installation for both a dry dust collection and wet mist collection system for a plastic's grinding and extrusion line
- Design, build and installation for a redundant chilled water system
- Complete electrical and mechanical installation of four storage silos along with the convey system to the silos
- Installation for all extrusion, grinding, and pulverizing equipment foundations and trench drain system

OUTCOME OF PROJECT

Customer is on its way to recycling 100 million pounds of plastic a year. Great for business and the environment.
