

## EXTENSIVE CLIENT LIST

We have installed roughly 200-plus extrusion, injection, blow mold, and thermal mold lines along with the ancillary equipment plus chilled water, compressed air, exhaust air, and electrical and controls. The following is a list of some of the manufacturers that we have worked with.

### GENERAL PLASTICS LAYOUT/WORKFLOW

The project had a very tight timeline in order to meet the requirements of the contract. The building was just being completed and we had roughly 3 months to get the equipment and utilities installed. By coordinating closely with the OEM, city, and local utilities, we were able to meet the targets.

RAIL/TRUCK UNLOAD SYSTEM » SILO PAD AND SILOS » PNEUMATIC CONVEY » DAY BINS  
MAIN EXTRUDER/BLOW MOLDING » DOWNSTREAM » PACK STATION
