Mechanical Installation For Plastic Bottle Plant

One Contractor. One Team. Done Right.

We Don't Just Install Equipment—We Deliver Solutions.

Applications

A large plastic bottle manufacturer was tasked with relocating 13 Blow Molding Machine and other miscellaneous equipment from another plant. The project was comprised of electrical, piping, equipment relocation, and setting of larger equipment. Wells Brothers Inc was chosen out of four bidders for the piping and mechanical installation.

Solution Provided

Wells Brothers Inc., provided enough manpower to meet a 5 week schedule. A two shift work week was provided with 10 guys per shift. There were 13 machine headers set on the mezzanine with pipe sizes from 1" up thru 18". Both Victaulic and welded pipe were used.

Equipment set by WBI included a Marley Cooling Tower, two 250 Ton Trane Chillers, Chilled Water Tank, Dehumidifiers, and four 250 Ton Air Handling Units.

Immediate Outcome

The end user was immediately satisfied with the handling of the challenging schedule, the communication, and the large crew provided by Wells Brothers Inc.

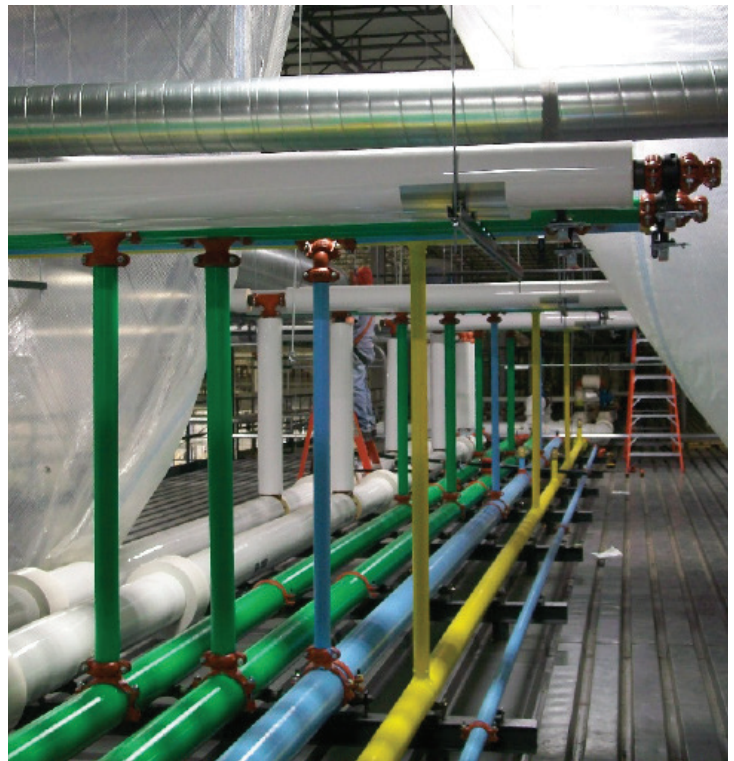

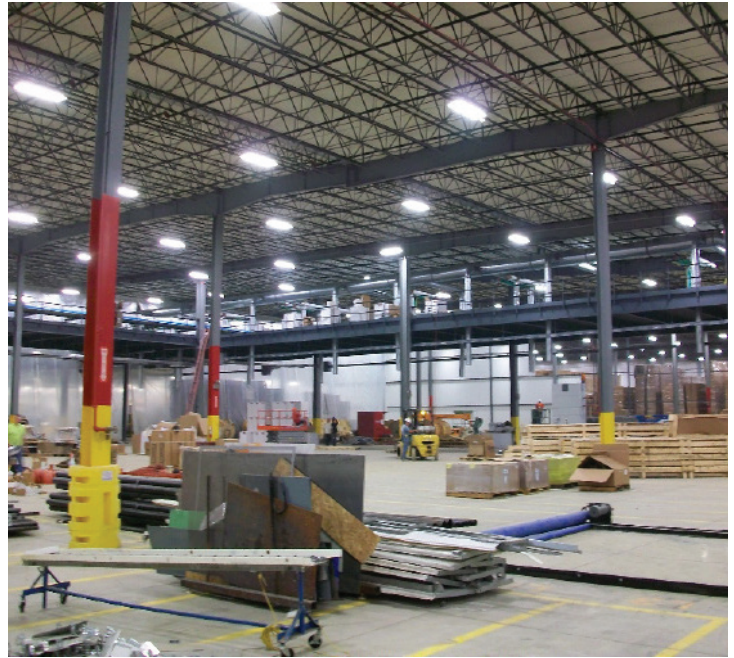

The Engineering Design firm was immediately satisfied with the level of work provided by WBI and has since requested multiple bids for other jobs in the US.

Long-Term Outcome

End user now has a new partner for all aspects of installation services.

Engineering firm has a new partner for other projects in the US.

WBI obtained two new long term customers for future projects.

Your Project. Our Expertise. One Call Does It All.

Thank you for your time!
