Success Stories

Wet/Dry Collection Systems | Foundation & Drain Work
Chilled Water System Installations

One Contractor. One Team. Done Right.

We Don't Just Install Equipment—We Deliver Solutions.

Applications

WBI was involved in the following for a plastics recycling facility:

- Design, build and install for both a dry dust collection and wet mist collection system for a plastics grinding and extrusion line.
- Complete electrical and mechanical installation of four storage silos along with the convey system to the silos
- Installation for all extrusion, grinding, and pulverizing equipment foundations and trench drain system.

Outcome of Project

Customer is on its way to recycling 100 million pounds of plastics a year. Great for business and the environment.
